

HAPPY FATHER'S DAY

You and your role in the family are very important for the health of your family and of our society which is built upon the foundation of all our nation's families. However, from the beginning of history parents have been imperfect, as have their children, so don't let that stop you from becoming the role model God is calling you to be!

Christ warned us against calling men "father" so that the leadership of His family could remain pure. Remain faithful to Christ thru humility so you can lead your family into the love of God the Holy Trinity and love of neighbor.

May the Lord have mercy on all of us who lead His little ones, regardless of the type of fatherhood our vocation asks of us.

Here are 7 helpful tips that you may find useful in your efforts to bless your family:

1. Love your wife - children derive security and stability knowing their parents love one another. Let them see you doing special things for her. Show them what a healthy relationship looks like.
2. Be a good role model - children will copy what they see you doing. Smile and be respectful: at all times.
3. Make time with your family a priority. You won't look back regretfully on time spent playing and relaxing with them!
4. Realize each child is different - do not treat them all the same; pay attention and attempt to meet their needs.
5. Take your children to church - they will grow up knowing you love the Lord and worship Him in the church He has built.
6. Let your children be children - expectations must be reasonable.
7. Talk with your children- depending upon their age this is easy or not. Be a good listener; show interest in what they say.
