“Centering Prayer is a method designed to facilitate the development of contemplative prayer by preparing our faculties to cooperate with this gift. It is an attempt to present the teaching of earlier times (e.g. the 14th century book The Cloud of Unknowing) in an updated form and to put a certain order and regularity into it. It is not meant to replace other kinds of prayer; it simply puts other kinds of prayer into a new and fuller perspective. During the time of prayer we consent to God's presence and action within. At other times, our attention moves outward to discover God's presence everywhere.”
